Urbanisation

1. Match the heads and tails

-High Income Country (HIC)

-Low Income Country (LIC)

-Newly Industrialised Country (NIC)

Middle income countries that have grown and developed quickly e.g. Vietnam

A country that is wealthy and has a high standard of living e.g. USA, Japan & UK (also known as MEDCs or MDCs)

A country that is poor and has a low standard of living e.g. Malawi. GNI per capita income of $1,045 or less

UK, Vietnam & Malawi are our case studies

Megacities have a population of over 10 million.

2. Match the heads and tails

- Urban
- Rural
- Urbanisation
- Migration

- Moving from one place to another to live
- An area of countryside e.g. Malham
- A built up area e.g. a town or city (Bradford)
- An increase in the amount of people living in urban areas

The world's population is growing rapidly and reached 7.3 billion people in 2011. The highest rates of population growth are occurring in developing countries, such as Zimbabwe, Malawi and Niger. Some countries are experiencing population decline, for example Japan, Russia and Ukraine.

Today more than 50% of the world's population live in urban areas. The number of cities with over 10 million people is increasing. These are called megacities. There are now 34 megacities in the world. The table below shows the top 10 megacities.
