

# A Level Photography – Prep Work

## *Photographer research*

**Task 1:** Research a theme of photography you would like to study. This could be portraiture, Architecture, landscapes, natural forms etc.

**Task 2:** Look at 2 photographers that you like the work of. You can research different photographers on Google, Pinterest, Instagram etc. Create a PowerPoint with a page for each of these. The page will contain images of their work and some information about them.

**Task 3:** Take photographs for these artists. Try to capture the same images as the photographer i.e. if you're looking at a portrait photographer you will take photos of faces. Add these images onto your PowerPoint.
