

# Yr 12 intro transition work

# You must investigate The Philippines as a case study of a *multi hazardous zone*

Part 1 Please create a short report detailing

- the location of the Philippines and include some development indicators (where is it/maps/how wealthy is the country?)
- A case study of any volcanic event to occur in the Philippines in the last 30 years
- A case study of any seismic event to occur in the Philippines in the last 30 years
- A case study of any tropical storm to occur in the Philippines in the last 30 years

Part 2 Now include a short evaluation (300 words) of how hazards are linked to a country's level of development. In other words;  
*Do natural disasters have anything to do with how much money a country has?*
