

Identifying and Understanding Venn Diagram Sets

1. The Venn diagram shows some information about sets A and B.

a. Write down the elements in set A.

b. Write down the elements that are in both set A and B?

c. How many elements are in set B?

2. The Venn diagram shows some information about sets A and B.

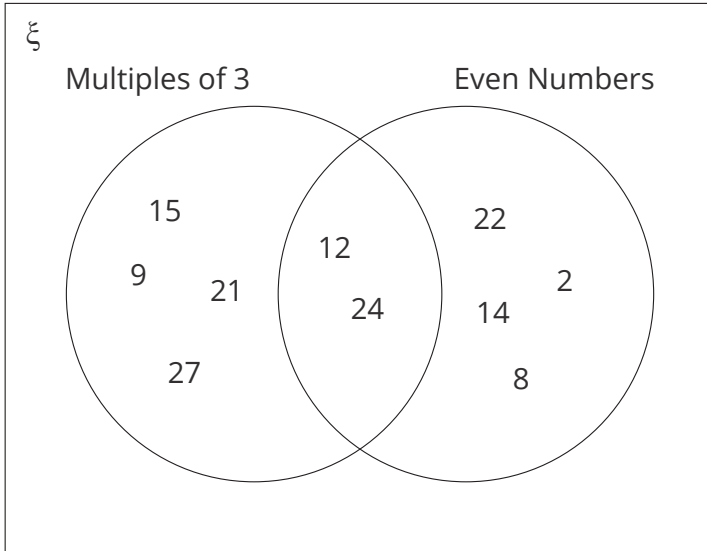

a. Write down the elements in set B.

b. How many elements are in both set A and B.

c. How many elements are in set A?

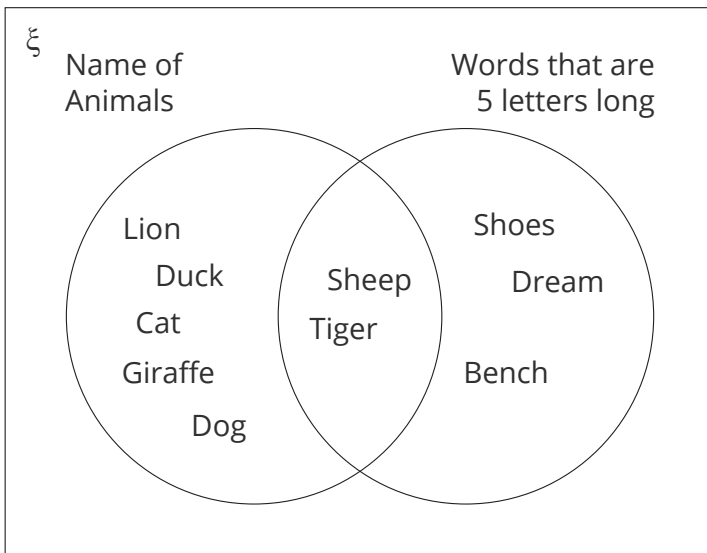

3. The Venn diagram shows some information about two sets.

a. Write down all the multiples of 3 shown in the Venn diagram.

b. Write down two even multiples of 3.

4. The Venn diagram shows some information about two sets.

a. How many words are 5 letters long?

b. Write down the elements in set A. Use the form $A = \{\text{names of animals}\}$.

5. A is the set of square numbers between 20 and 50. Write the information out in full, using set notation.

$A = \{ \text{_____} \}$

6. Write out the following sets in full:

$\xi = \{\text{months of the year}\}$

$A = \{\text{months beginning with a J}\}$

$B = \{\text{months with a letter R in the name}\}$

7. Write out the following sets in full:

$\xi = \{\text{days of the week}\}$

$A = \{\text{days beginning with a T}\}$

$B = \{\text{days with a letter E in the name}\}$

8. Write out the following sets in full:

$\xi = \{\text{the first 10 multiples of 7}\}$

$A = \{\text{multiples less than 50}\}$

$B = \{\text{even numbers}\}$

Identifying and Understanding Venn Diagram Sets

9. If $\xi = \{\text{football, netball, swimming, rugby, snooker, running, cricket}\}$, write out the following sets in full:

A = {ball games}

B = {activities that can involve running}

10. Write out the following sets in full:

$\xi = \{\text{positive whole numbers less than 20}\}$

A = factors of 48

B = cube numbers

C = even numbers
