

## Year 10 History - Isolation work

### 'Elizabethan England': What was the response to Elizabeth's religious 'middle way'?

#### Task 1

Examine the information on the differences between the Catholic and Protestant churches. They are both Christian faiths but look and sound very different! You should examine the picture clues provided as well as the VENN diagram of information in order to complete the blank table (shown on the slide) by drawing it out on paper and filling it in with the relevant information.

#### Task 2

Read the handout on what Elizabeth I's religious settlement looked like in 1559. This was the result of Queen Elizabeth's changes to the English church and has become referred to as 'the middle way' (can you see why?)

Read through each of the rules and using your knowledge of Protestant and Catholic religious beliefs and practises attempt to colour code the text to show which of the rules appear to look more Protestant or Catholic in nature.

#### Task 3

Complete the 'What was the reaction to Elizabeth's religious settlement?' sheet by marking in each box which group would be most happy with the religious changes as well as a summary paragraph at the end to analyse the impact of these changes.
